Istanbul, Turkey

Education

10/2019 – 03/2023 Istanbul, Turkey **Software Engineering Bachelor's**

Istinye University 🛮

Professional Experience

09/2022 – present

Software Engineer

Softtech ☑

- * Development of **Commercial Credit Application** from start to finish using **Java 8** and **Spring**
- * Using applications such as **Junit**, **Soap UI**, **Postman** while testing the application
- * Use of **Elasticsearch**, **Kibana**, **Grafana** and **Splunk** applications while monitoring the application in test and production environments
- * Keeping required data in database using OracleSQL
- * Developing a new customer eligibility control application using Java 11 and Spring Boot
- * Tracing using Jaeger, Instana apps
- * Using applications such as **Postman** and **Junit 5** while testing the application
- * Developing using OpenShift in test and production environments

07/2021 – 09/2021

Intern

Istanbul, Turkey Agito Software & Consulting 🗷

I used Java with PrimeFaces to build new pages for the Health Insurance Software.

Projects

Sorting Visualizer

I made a sorting visualizer app with PyGame using Python. It visualizes sorting algorithms such as bubble, selection, insertion, merge and quick sort.

Maze Generator 🛮

I made a maze generator with PyGame using Python. I used recursive backtrack algorithm and implemented it with stack data structure.

Password Manager App 🛮

2 friends and I made a desktop app with C++ for our school project. We used ElephantSQL for the database and Qt for GUI. You can register/login as a user and store your passwords as key/value pairs with descriptions.

Word Finder Project

I made a mini project for my school homework. It takes a word and a path and it finds all the files that contains that word. It also looks all the subfolders. You can customize it's sorting and filtering behaviors.

Skills

- Java
- Kubernetes / OpenShift
- SQL (Oracle SQL, PostgreSQL, MySQL)
- Spring / Spring Boot / Spring Security
- React
- No SQL (Cassandra, MongoDB)
- Hibernate / JPA / JUnit 5 / Mockito / Kafka
- HTML/CSS
- Docker

- Elasticsearch / Kibana / Grafana / Splunk / Azure DevOps / XL Release / Jaeger / Instana / Swagger UI / Postman / Soap UI
- Python (Django)
- Git (Github, Gitlab, Azure)

Languages

English
ITEP C1

Turkish
